

Stainless Floor Cabinets

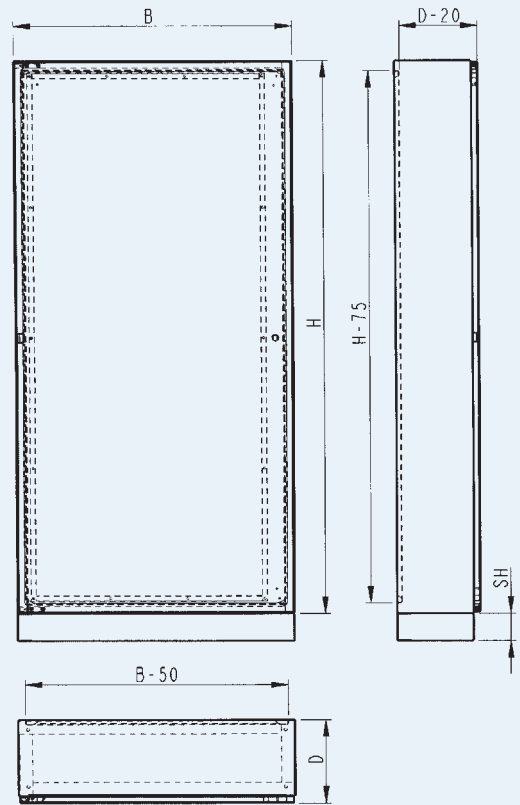

SST's stainless floor cabinets are IP 66 and UL 50 type 4 and 4X approved. The cabinets are made of the highest quality of 1.5 and 2.0 mm rust-proof ground plate, grain 220 (AISI 304, DIN 1.4301, SS 2333). The cabinets also come in AISI 316 L, DIN 1.1404, SS 2348. The mounting plate is made of 3 mm galvanized sheet. The lock is a 3 mm double-tab locking system as standard but can be supplied with the locking system that is desired. The cabinets are manufactured with 85° crooked water nose. The opening angle of the door is approx. 110°.

HIGHLIGHTS

- + Extruded EPDM rubber strip
- + One-grip, three-point closing mechanism
- + Strong hinge intended for heavy loads
- + 3 mm mounting plate
- + IP 66 and UL 50 type 4 and 4X approved
- + Available in widths 600, 800 and 1000 mm, as well as 1600, 1800 and 2000 mm height
- + Plinth height 100 and 200 mm
- + Door with reinforcement frame, possibly w. pane

Stainless Floor Cabinets

Accessories

- Plinth with height 100 and 200 mm
- Instrument panel/swing frame
- Ventilation grate
- 19" rack rails
